

PARK JUNYOUNG

/박준영/ [pɐk t͡ɕu.nʌŋ]

✉ bloomwayz@snu.ac.kr

🔄 young-52

🌐 junyoung.vercel.app

I design interactions that help people make sense of complex computational systems.

Areas Human-Computer Interaction · Social Computing · Formal Semantics of Languages

Education

Mar 2023–Feb 2028
(expected)

Seoul National University (SNU),

B.A. in Linguistics; B.Sc. in Computer Science & Engineering.

GPA: 4.02/4.3

Research Appointments

Jul 2026–

KAIST Interaction Laboratory (KIXLAB), *Research intern.*

Advised by Juho Kim.

Oct 2025–Jul 2026

Natural Language Processing Laboratory (SNUNLP), *Research intern.*

Advised by Hyopil Shin and Sangah Lee.

Aug 2024–Aug 2025

Programming Research Laboratory (ROPAS), *Research intern.*

Advised by Kwangkeun Yi.

Selected Research

Jul 2026–
@ KIXLAB

Exploring Public Opinion via LLM Agent-Based Mini-Publics

Ongoing research.

Apr–Jun 2026
@ SNUNLP

Code Model Preferences and Predictive Cues in Array Completion 🔄

- Synthesised a JavaScript dataset and compared next-token logits from code models.
- Found that state-variable preferences were better explained by declaration-form and variable-use cues.

May–Aug 2025
@ ROPAS

Static Analysis-Augmented AI Python Tutor 🔄

- Designed prototype and user scenarios, and implemented the frontend–backend API integration.

Mar–Jun 2025

Hapticky: Haptic-Augmented Keyboard for Low-Vision iPhone Users 🔄

Final project for the SNU course *Human-Computer Interaction*.

- Conducted exploratory user interviews and co-designed haptic patterns.

Aug 2024–Jun 2025
@ ROPAS

Language Server for M, a polymorphic-typed lambda language 🔄

- Led the implementation, including token-level type inference and editor integrations.
- Deployed as the official development tool for the SNU course *Programming Languages*.

Nov 2023–Dec 2024

Generational Variation in Korean Lateralisation

Final project for the SNU courses *Phonology* and *Historical Linguistics*.

- Designed speech-production studies and modeled phonological variation using MaxEnt Harmonic Grammar.

Manuscript

Under Review

From Simulated Citizens to Simulated Deliberation: Challenges in Representation and Interaction

Chaemin Jang, Junsik Min, Jaewoo Choi, Donggyu Lee, Haiin Lee, Junyoung Park, Namhee Kim, Hyunwoo Kim, Jungwon Kim, Juho Kim, Nuri Kim, Jihee Kim

Submitted to SocialAgent @ NeurIPS 2026

Selected Honours

Sep 2025–Aug 2027

Humanities Scholarship, SK ecoplant Co.,Ltd.

Recognised for societal contribution; ₩2.5M scholarship per semester.

Jun 2025

Outstanding Teaching Assistant Award, SNU College.

SNU F37.101 *Basic Computing*.

Aug 2023

Ku Jaeseo Scholarship, SNU Foundation.

Recognised for academic excellence; half-tuition.

Teaching Experience

Undergraduate Teaching Assistant

Fall 2026

SNU F37.101 Basic Computing

Spring 2026

SNU F37.204 Core Computing, Head undergraduate TA.

Fall 2025

SNU F37.204 Core Computing

Spring 2025

SNU F37.101 Basic Computing, Outstanding Teaching Assistant Award.

Spring 2025

SNU 4190.310 Programming Languages

Spring/Fall 2024

SNU L0444.000500 Core Computing

Summer 2023

SNU L0444.000400 Basic Computing

Development Experience

Dec 2025–Jun 2026

Moiming, Frontend developer.

A web service for easy first-come, first-served event registration.

Originally developed for SNU Running Crew.

Nov 2025–Apr 2026

Tour of Gradio, Frontend developer.

Designed and implemented an interactive LLM/Gradio tutorial for non-CS learners.

Miscellaneous

Sep 2025–

Waffle Studio, Frontend engineer.

A development club at SNU.

Co-organizing a React seminar for new members in Fall 2026.

Mar 2024–

LnL, the residential college at SNU, Residential assistant.

Advised freshman mentees on campus life while living alongside them in SNU Residence Hall.

Jan 2025–Feb 2026

Linguistics Student Association, Co-founder & co-director.

Organized community events and student welfare initiatives, including the first Professor-Student Council on the educational environment.

Skills

Natural Languages

Korean/한국어 (native, 2003) · English (fluent, 2009) · Spanish/Español (intermediate, 2020)
German/Deutsch (elementary, 2024) · Korean Sign Language (elementary, 2026)

I Use Frequently

Python (2019) · $\text{\LaTeX}$ (2023) · OCaml (2024) · TypeScript (2024) · Typst (2024) · React (2025)

I Have Experience in

C (2016) · Java (2018) · JavaScript (2024) · Swift (2025) · C++ (2025) · ReScript (2025) · Rust (2025)
Next.js (2026) · Svelte/SvelteKit (2026)
